DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-11, drawn to rendering of an electronic document responsive to determination if a data structure contains a user interaction entry related to an element of the document, classified in class 345, subclass 738.
 - II. Claims 12-15, drawn to a method for storing user interaction habit with an electronic document, classified in class 345, subclass 745.
 - III. Claims 16-20, drawn to a computer system having a browser capable of accessing user habit and a renderer for rendering an electronic document according to the user habit, classified in class 345, subclass 745.

The inventions are distinct, each from the other because of the following reasons:

Inventions I, II and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, inventions of Groups I, II, III has separate utility such as a method for rendering of the electronic document responsive to user interaction (Group I), a method of storing of user interaction habit of (Group II), and a computer system for rendering the electronic document according to user habit (Group III). See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and the search required for one Group is not required for the others, restriction for examination purposes as indicated is proper.

2. A telephone call was made to Mr. McClellan on 6/11/03 to request an oral election to the above restriction requirement, but did not result in an election being made.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ba Huynh whose telephone number is (703) 305-9794. The examiner can normally be reached on Mon - Fri, between 8:30 AM to 5:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Cabeca John can be reached on (703) 308-3116. The fax phone numbers for the organization where this application or proceeding is assigned are (703) 746-7238 for regular communications and (703) 746-7239 for After Final communications.
